

Willow Tree Primary School

Sports Premium Report 2015/16

The sports premium is additional funding from the Government of £150 million per annum for academic years 2013/2014, 2014/2015 and 2015/2016 to provide new, substantial primary school sport funding in order to improve the provision of physical education and sport in primary schools. There is a commitment to provide funding until 2020. This funding is jointly provided through the Departments of Education, Health and Culture, Media and Culture, Media and Sport, and will see money going directly to schools to be spent on improving the quality of sport and PE for all their children.

This funding can only be spent on provision for PE and sport. Schools are accountable for how the additional funding is used to support pupils progress and participation in PE and school sport. We are required to publish on-line information about how we have used the additional funds, including details about our sporting provision alongside curriculum details. This will ensure that parents/carers and others are made fully aware of the sporting provision at Willow Tree.

All schools with 17 or more primary-aged pupils will receive a lump sum of £8000 plus a premium of £5 per pupil.

For the academic year Sept 2015 – August 2016 we received £8856.00

How have we spent this?

A PE provider has been bought into school at a cost of £8236.00. Unstoppable sports are providing quality PE lessons to our children and alongside this CPD to staff.

We have also employed a PE Assistant to embed the new PE curriculum across the school at a cost of £3151.82

Impact Statement:

Following a review of the impact of the sports premium funding, the school decided to employ its own sports coach. As a result, high quality PE teaching is evident across the school. Teachers and teaching assistants observe and team alongside the sports coach. As a consequence, their skills are developing very effectively. Furthermore, a wide range of sports clubs are now offered across both KS1 and KS2. This has resulted in increased participation rates in healthy activities and competitive sport. Current registers show that over 130 places are taken up each week through our football

clubs (KS1 and KS2), netball club, dance club, dodgeball club and keep fit club. This is a substantial increase from previous years.
